Conversations developed towards strategies, costs, policies of the WRSD. Also discussed was the current state of the Legislative actions in the area of Education Funding as well as its impact on a community like Northfield. A brief discussion regarding the possible membership of the newly formed WRSD Budget Committee was also held. Members were encouraged to develop early ideas for direction and proposals. It was agreed that each person would research or gather information on a topic for a 10 minute oral presentation at the next meeting. Tricia Sawicki suggested that she would volunteer to attend the WRSD School Board Meetings and report on upcoming events and activities.

The next meeting date was left open pending consultations with individual calendars but generally felt that meeting once per month would be sufficient at this time.
