- **Plan**

Committee reviewed the proposed plan to make final adjustments as needed.

Mr. Haskins stated that he is having some help with completing a map of the project site. He added that he received a quote for the walkways and gazebo which came to approximately 3100 sq feet. He added if we did pavers, it would cost about \$83,700, stones dust without sides costs about \$8,000. In addition, he received a quote for hydroseeding approximately 71200 sq feet came in about \$6500.

Committee agreed that the bell should be on top of the gazebo and it measures 3'D x 3.5'W x 3.5'H, so that when looking at copulas we have the full measurements and can figure out a way to rig it to ring during special events.

Committee agreed to list out grant options and community organizations that may be able to assist in the project on the last pages of the plan.
