SUBJECT: Curbside Trash Can Size Parameters

DATE ISSUED: 1/30/24

PURPOSE: To develop a policy which outlines the parameters if a resident wants a smaller trash can.

OVERVIEW: With the new contract all residents with 1-2 family will receive a 95 gallon trash can. It was requested for smaller cans to be available and to put stipulations on who can receive these small cans. After checking with a few other towns that have automated curbside collection, the census is to keep the requirement at 65+, disabled and if the driveway is over 200 feet long.

OBJECTIVE: To move forward and propose updates to the Solid Waste Regulations, we will need to hold a public hearing and accept the changes once finalized.
