OFFICERS EDUCATION:

BUILDING:

I requested three (3) quotes to see what it would cost to replace the HVAC system (Cooling) at the station. The system is still operational. The quotes are only to see the repair cost in case the system happens to fail.

ADMINISTRATION:

I know I mentioned this in a meeting, but I did go ahead and order the Bullet Proof Vest this year we are looking to replace next year. I felt we have plenty of money left in our overall budget, so I went ahead and purchased them this year. Some of the line items will show overspent, but the bottom line shows plenty left in the department's budget.

Ken Tripple did back out of the hiring process. So, we will not be moving forward with Ken. We have been looking at other applications.

CRUISERS: General Maintenance only. Car 23 is now in service. Just waiting for a few things that need to be added. This would include the hub caps are the wrong ones. Watch Guard forgot to send a cable which I have recently received. It's scheduled to be put in.

Cars 17 and 21A had new Gun Racks installed for safety reasons. One being if someone happens to break a window to gain access to the inside of the cruiser, they will not be able to remove the rifle from the vehicle.

Car 19 the engine light has come on. Apparently, there is an issue with the Catalytic Converter. We do have an extended warranty on this vehicle, so Ford is repairing the issue at no cost.

EQUIPMENT:

Just waiting for the new Firearms and Tasers to be delivered.
