## Town of Northfield, NH Board of Selectmen

**SUBJECT:** Police Department Update

**DATE ISSUED:** 11/30/2023

**PURPOSE:** To provide an update on the Police Department

**OVERVIEW:** The Board meeting on November 21, 2023, I requested we continue an approval item until December 5<sup>th</sup> meeting due to a Software issue with WatchGuard (Motorola) that was brought to my attention. The issue is the Evidence library we currently are using to support our camera downloads is no longer supported by Motorola. The other issue is that the program we are currently using will not be supported by windows 11. We are currently using windows 10. I did speak with Jon Rich, and he is planning on moving forward and installing windows 11 in 2024.

I asked the board to continue to allow me to research the cost of updating to a new program. I am currently in the process and still waiting for a few quotes to finalize the price. I am asking the board to continue this until the December 19<sup>th</sup> meeting for any approvals.
