

Northfield Police Department

February 2024 Monthly Report

ATTENTION: BOARD OF SELECTMAN

SUBJECT: DEPARTMENTS FEBRUARY MONTHLY REPORT

1. The Department had 17 Arrests.
2. 32 Investigations
3. 157 Motor vehicle stops.

OTHER CALLS:

Domestic Disturbances to include a serious Felonious Criminal Threatening and Felonious Reckless Conduct with a deadly weapon. SWAT was called for the incident. Before SWAT arrived, Northfield Officers were able to take the male into custody safely without incident. Another domestic incident took place a few days ago where a felon was reported to have a weapon. Domestic paperwork was served to the male and a search warrant was executed on the residence. A pistol with ammunition was located and the male was immediately arrested for Felon in Possession of a Deadly Weapon and Violating a Domestic Violence order. He was sent to jail and is currently still there.

BUILDING:

Air purifiers were added to the evidence room and appear to be working. There is no noticeable difference. I received a quote from ADF Flooring for a new carpet for the police department. The quotes were broken down into two separate quotes. One for the reception area and hallway was approximately \$3,000. Everything was \$8,725. I asked Highway to come and remove some of the old equipment in the basement. We are starting to clean up some of the old, stored equipment, and excess items.

I spoke with Primex about a holding cell. I believe there is a liability factor in our holding room with no cell.

ADMINISTRATION:

Sgt Allysia Burton will be promoted to the position of Lieutenant. She interviewed well with a panel of local police chiefs.

CRUISERS:

O'Reilly's donated approximately \$2,800 of Pads and rotors to the police department. Car 22 needed pads and rotors so it was perfect timing. No major vehicle issues.

EQUIPMENT:

We received the radar signs. We are working on all the parts and getting placement locations. I spoke with Adam from Highway about it.

We received the new Glock pistols but are waiting for the optics to arrive so we can assemble them.
